Definitions

(Yellow) Special Order – formal communication of Patton Electronics' intent to make this product(s) special order due to a long term change in demand or component/supplier issues.

Early alert of impending availability issues due to one or more of the following conditions:

- *there are obsolescence issues with required components*
- *declining product sales no longer cost-justify production*
- *the product is replaced by an updated form, fit, and function equivalent*

Careful consideration should be made when considering this product(s) for new installations or designs.

Non-Standard terms such as "Last-time-buy" terms and conditions may apply. Minimum Order Quantity (MoQ), extended lead times and price increases are to be expected.

Software maintenance activities have subsided or ceased pending which of the above availability issues are causing the Yellow status.

Product repairs will be performed in accordance with customer specific service plans and upgrade agreements as negotiated prior to Change in Lifecycle status or for up to 1 year past the purchase date.

Product technical support will continue to fully support the product.

Product warranty will be valid for any units purchased for up to 1 year past the purchase date or as required by law. Yellow products may, or may not be eligible for extended or enhanced warranties

(Orange) Sunset Definition – formal communication of Patton Electronics' intent to end the life of the product(s) noted.

Final alert of impending availability issues due to one or more of the following conditions:

- *there are obsolescence issues with required components*
- *declining product sales no longer cost-justify production*
- *the product is replaced by an updated form, fit, and function equivalent*

Product(s) should not be considered for new installations or designs.

Orders that are accepted will be under "Last-time-buy" terms and conditions. Minimum Order Quantity (MoQ), extended lead times and price increases are also to be expected.

Software maintenance unless contractually agreed to otherwise, has ceased.

Product repairs may be performed in accordance with customer specific service plans and upgrade agreements as negotiated prior to Change in Lifecycle status or for up to 1 year past the purchase date.

Product technical support will continue to fully support the product.

Product warranty will be valid for any units purchased for up to 1 year past the purchase date or as required by law. Orange products are not eligible for extended or enhanced warranties.

(Red) End of Life Definition –formal communication of Patton Electronics’ the product(s) is low now End of Life.

Product repairs may be performed in accordance with customer specific service plans and upgrade agreements as negotiated prior to EOL or for up to 1 year past the purchase date. Patton reserves the right to repair or replace the equipment with a next generation replacement should one exist.

Product technical support will be provided for any units purchased for up to 1 year past the purchase date.

Product warranty will be valid for any units purchased for up to 1 year past the purchase date or as required by law. Red products are not eligible for extended or enhanced warranties.

Alternative/Replacement Products/Solutions

There are no replacements for the C (V.35), D (X.21) and K (E1) modems. The product replacement for the 3088A/I is the OS2300 or OS3300. Both OS2300 and OS3300 models are backwards compatible to the 3088A/I in 2 wire mode. The new OS2300 model will offer higher top speeds, longer reach and a 4-wire (2-pair) option. The OS2300 retains the dipswitch for basic management like the CL1314, but also includes the option to manage the modems via WEB, Telnet, or Patton Wizard.
