Technote # 100026	2703: Updated Clocking Configuration.	Date May 11, 1999

Model 2703: Regarding the User Manual (Revised 6/19/1998).

Here are updates on pages 5 & 7 of the user manual.

On "S1 Summary Table" (page 5),
change the row for S1-1 as follows:

```
Position  Function          Factory Default
-------------------------------------------
S1-1      X.21/EIA-530/V.35  off (V.35)
-------------------------------------------
```

In Section "3.1.2 Switch Set S2 (To Be Used in Conjunction
with S1-1" (page 7),
change the description table as follows:

```
S2-1   S2-2              Setting
--------------------------------------------------
ON     ON     V.35 Interface (S1-1 must be "off").

off    off    X.21/EIA-530 Interface (See S1-1).
```
