## IP Video Made Easy Stream Video 6,000 Feet over Existing Twisted Pair

*Patton's plug-and-play **Model 1173** simplifies deployment and lowers installation costs by delivering high-quality streaming video over existing copper infrastructure.*

**Now you can transmit** high-quality streaming video over ordinary copper telephone wire. Patton's **Model 1173 IP Camera Network Extender** makes IPTV possible any place there's a twisted pair.

**Eliminate the cost** of infrastructure upgrades, including site-survey and interference testing for wireless solutions.

### Get the Specs

Patton's Model 1173  
IP Camera Extender  
Rate & Distance Chart

**Problem solved.** The Model 1173 is truly plug-and-play with no new cabling required. Just find a phone wire or alarm circuit—even a CAT5 cable—and drop it in.

**Faster & Farther.** Patton's innovative technology takes video-over-Ethernet up to 6000 feet/1830 meters (4 Mbps) and up to 2000 feet/610 meters (50-Mbps).
